

› INTEGRITY MAX R/T SERIES UPS LINE

The NXT Power Integrity Max R/T is the latest product in our UPS line. Its sleek design can be easily integrated into any rack system or stand upright in its tower configuration. Keeping your equipment always online and protected.

INDUSTRY-LEADING EFFICIENCY AND PERFORMANCE

An intelligent and efficient choice for servers, storage, and networks. Providing clean, reliable, and uninterrupted power to ensure uptime. The Integrity Max R/T is designed to protect critical data and equipment from power problems with a low-impedance isolation transformer integrated into the UPS, providing protection to your equipment from electrical power disturbances.

SUITABLE FOR USE WITH:

- › Clinical Diagnostics Application
- › Retail & Industrial Environments
- › Information Technology Equipment

SUPERIOR POWER PROTECTION BENEFITS & FEATURES
